

BOP control system

Model Indication

FK Q xxx-x x

Improvement Code

Number of Controlled Objects: e.g. 3, 5...

Total Volume of Accumulators (Units: L) 40~1800

Type of Remote Control Panel

Q- Pneumatic Remote Control Panel

DQ- Electric/ Pneumatic Remote Control Panel

DY- Electric/Hydraulic Remote Control Panel

Blank-Without Remote Control Panel

Product code

Note: 1 US gal \approx 3.8L

Description:

FUQUAN offers a range of control systems for surface mounted BOP stacks that can control 1 to 14 objects with accumulator volumes from 10gal ~ 480gal (40L ~ 1800L). The systems are rated at the working pressure of 3000 psi.

We offer accumulators that comply with ASME that is required to meet API SPEC 16D.

BOP control system

Model	Number of Controlled Objects				Accumulators		Volume of reservoir (L)	Motor power (KW)	Flow rate of pumps		
	Annular	Ram	Choke	Back-up	Total volume(L)	Effective volume(L)			Electrical (L/min)	Pneumatic (ml/r)	Manual (ml/r)
